

## Vacancy

### Assembler/Pressure Tester

### (Double Day Shift)

We are currently looking to recruit a skilled person on the Double Day Shift (Shift A) to build and test all product lines

You will be expected to have:

- excellent fitting skills coupled with good manual dexterity
- an ability to work individually or as part of a team and follow instructions/photos/drawings
- an understanding of hydraulic / pneumatic systems
- knowledge of high pressure test activities using both hydro and gas mediums
- good written and verbal communications
- an understanding of third party inspector's requirements

Ideally you will also have undertaken an engineering apprenticeship or other formal engineering training plus obtained relevant experience in a similar environment. Further training will also be given to the successful candidate.

The working hours for this role will be as per the standard Double Day Shift which rotates every other week for which you will receive the appropriate shift premium:

	<b>Early Shift:</b>		<b>Late Shift:</b>
Monday – Thursday:	6.00 – 14.00	/	14.00 – 22.00
Friday:	6.00 – 11.30	/	11.30 – 17.00

If you would like to apply for this position, please express an interest or submit an application to: **Doug Griffin, Production Manager**
